ABOUT ME

Aspiring Software Engineer with a strong foundation in programming, frontend development, and user-centered design. Skilled in Java, C, C++, React, and modern development tools, with hands-on experience building AI-powered applications, multiplayer gaming platforms, and productivity solutions. Passionate about creating innovative, scalable, and user-focused software while continuously learning new technologies and contributing effectively in collaborative, fast-paced environments.

ACADEMIC QUALIFICATION

- Sethu Institute of Technology - B.E. (Computer Science and Design) - CGPA (7.729 - 5th sem)
 - PariVallal Matric Higher Secondary School (12th Grade) - Higher Secondary - Passed with 69.33%
-

EXPERIENCE

- Completed a 10-day Internship in **Internet of Things (IoT)** Level 1 & Level 2, gaining practical experience in IoT concepts, sensor integration, embedded systems, and real-world application development.

SKILLS

- **Technical** : HTML5, CSS, JavaScript, React.Js.
 - **Programming** : C, C++, Java, Python.
 - **Design Tools** : Figma, Canva, Photoshop, Blender.
 - IoT & Embedded Systems
-

PROJECTS

- **Arivon.AI**

Developed an AI-powered aptitude test platform that generates syllabus-based assessments and provides instant results with performance analysis for enhanced learning.

- **Smart work flow**

Developed an AI-powered task management platform that enables smart task prioritization, progress tracking, and workflow automation to enhance productivity and efficiency.

- **Thayam Arena**

Developed a multiplayer strategy game inspired by the traditional Tamil board game THAYAM, featuring real-time gameplay, tactical mechanics, and an immersive gaming experience.

- **Archi-Mate**

Developed an AI-powered software architecture generator that transforms natural-language application requirements into interactive, editable architecture diagrams, enabling developers to visualize system components, relationships, and project structures efficiently.

CERTIFICATE'S

International Conference on Emerging Computing and Intelligent Systems

- **SIT**

Programming In Java

- **NPTEL**

Front end development using react

- **Karam Academy**

VISAI 2026 is the International Project Competition - Participants

- **VEL Tech**
